Again, it is better to check completed questions and problems. It was extremely helpful to catch my mistakes and was (most of the time) developed enough that I didn't have to use the solutions manual to dig me out of a hole many times. It serves your purpose, but in a manual of solutions, I want much, much more. It was extremely helpful in catching my mistakes and was (most of the time) polished enough to guide me from my mistake to the right or desired solution. The vast majority of solutions are not complete or are not in sufficient detail, so if you were not in a mental pickle, this solution manual is not enough to get you out of it. ...more Analytical Chemistry - Stud.
