Objectives and objectives in a dissertation Wednesday 20 A* Jayden Education for Sustainable Development (ESD) is a key element of the 2030 Agenda for Sustainable Development. Its objectives are one of the objectives of the Sustainable Development Goal on Education SDG 4.7 and is considered a driver for the outcomes of all 17 SDGs. ESD enables everyone to make informed decisions in favor of environmental integrity, profitability and a society that is just for present and future generations. It aims to provide the knowledge, skills, attitudes and values needed to address sustainable development challenges. Complementing the UNESCO Guidance Document – Education for Sustainable Development Goals – Learning Objectives, this resource bank has been designed for educators, education planners and professionals. It offers hundreds of pedagogical ideas for classroom activities and multimedia resources that illustrate how best to integrate ESD into teaching and learning, from early childhood care through secondary education. Page 2 Poverty can be defined as a lack of money and/or vital resources that make it impossible or challenging for human beings to live with dignity and provide for themselves. Worldwide, 836 million people still live in extreme poverty. The two worst affected regions are sub-Saharan Africa and South Asia. In these regions, 70% of the global population lives below the poverty line. Because education is key to achieving SDGs-1 Access to education contributes to poverty reduction because an educated population is able to make informed decisions that contribute to equal rights, economic and natural resources and to provide basic services for all men and women. women, including ownership and control over land and property, inheritance, new technologies and appropriate financial services. (Access to Learning Objectives for SDG-1) At this level, the goal is to raise students' awareness about themselves and their immediate environment. By involving and interacting with classmates, they develop and promote values such as empathy, generosity and sharing. (Access Teaching Materials here) At this level, students are introduced to the different concepts of poverty and the real-life implications of living in poverty. At the same time, they learn about the possibilities of reversing this situation and identifying actions that support poverty reduction efforts. As they do so, they develop confidence in the belief that the Extreme can be eradicated during their life. (Access Teaching Materials here) At this level, students are introduced to key concepts such as sustainable development, equity and scarcity, and explore the interconnections between the genre and access to resources and subsistence means. These connections are made during the understanding and application of the concepts learned to the real world, real, Develop practical solutions to causes and consequences of poverty in a collaborative and investigative way. In parallel, students become aware of the diversity of existing within current societies and develop a critical capacity to challenge stereotypes. (Access educational materials here) Geography of human well-being: this resource deals with among other problems: as places, people and cultures differ globally; The economic, social and environmental impacts of development variations; As governments, groups and individuals respond to such inequalities. Poverty Toolkit: This toolkit helps explore the complex issue of poverty in the developing world, where many children and families face a daily struggle to satisfy their basic needs. Everyone matters - this math resource introduces students to children of four young people of life: Ethiopia, India, Peru and Vietnams examining disparity in wealth, income and access to health and education. History of Lucy-Students learn about a girl's life in rural Uganda and considers the differences and similarities between his lives in Australia and her business of her storytelling skills. Pumpkins against poverty - 'pumpkins against poverty' is a resource for pupils of the key phase 2 (aged between 7 and 11 years). It offers cross-curricular opportunities for pupils to explore the difference that pumpkins grow can do to people living in Bangladesh affected by flood. What is poverty? - This animation explores the nature of poverty and its relationship with human well-being. Students identify the different dimensions of poverty and recognize that it is much more than a low income. What causes poverty? - This animation examines physical and human factors that cause poverty and impact on human well-being. He also emphasizes the space variation in human well-being through a comparison of Australia and Timor-Leste. How do we measure poverty? This animation and worksheet examines different ways to measure poverty and human well-being with a special focus on the human development index. This includes income, education and health measures that compare Australia, Timor-Leste and Bangladesh. Protection of biodiversity and clean environment. Pakistan for sustainable development: Page 65 - This project consists in education for sustainable development. It concentrates on the education of people living in deplorable conditions. They are completely driven to learn good practices in order to get a better and healthier sustainable environment. For the execution of the project, the students of the Academy of Averoes first acquired theoretical knowledge about the pollution of the river, and then visited the field to observe and address real problems. Subsequently, they shared their experiences and presented project reports. This project is a simultaneous effort to clean the river, to revive its adjacent environment and to increase the awareness of local people of the problems relating to river pollution. Pedagogical resources No poverty: because it is important - technical note that presents SDG 1 and asking why there is a lot of poverty in the world, because we should worry about the economic situation of others and how we can achieve this goal. Respect my rights, respecting my dignity: this first form is a general introduction of the topic of poverty and human rights. The resource package aims to allow young people and those who work with them to understand the links between violations of human rights and poverty. A measured approach to the end of poverty and increasing shared prosperity - this policy research report includes: an overview of the Gemini objectives of the World Bank; The in a wider context; Empirical monitoring of targets. Ideas for class activities The world is not equal - it is so â€”is the right one - this resource explores: different types of inequality and impact that have on the wider society and the economy and presents a concise but persuasive topic based on research. Food of Global GoalsA"Every dish tells a story â€”This resource helps students to: Understand how the Global Goals were created and need to be achieved by 2030 and make connections to their lives; Evaluate a representative meal and identify alternatives in support of the Global Goals. Multimedia Educational Resources SDG 1 A* No Poverty â€”This video introduces the Draw Disability Campaign, which is: An educational initiative to raise awareness of disability and inclusion among children and young people; A global art project that gathers young drawings from all over the world; An advocacy campaign. What are the causes of poverty? - The animation examines the physical and human factors that cause poverty and affect human well-being. The report also highlights the spatial variation in human well-being through a comparison between Australia and East Timor. Get Inspired Egypt-Learning and Earning in the Garbage City of Cairo â€”Page 41- The Spirit of Youth Association (SOY) is an Egyptian non-governmental organization based in Manshiyet Nasser, one of the largest districts of the Zabaleen community of Cairo. Created by community members, the NGO aims to empower young community members through educational projects. The main project of SOY&A; is the Recycling School for Boys, which aims to improve the dissemination of practical knowledge both to improve qualification levels and to empower the community in the recycling sector. The school's broader goal is to reduce poverty and marginalization, and to improve health standards within the Zabaleen community. These objectives are achieved through literacy programmes, which are implemented mainly in the specific practical, work-oriented and family environment of learners. Children learn their rights and duties towards people and their environment.
