# How to find missing apps on android

How to find missing apps on android phone. How do i find missing apps on my phone.

Have you accidentally deleted an Android app on your device's main screen? You must be annoyed, right? Fortunately, for most devices, the deletion of an app on the home screen has not eliminated the app itself. However, it depends on your device, the version of the Android operating system is running, and what type of app you want to recover. As long as you have not accidentally deleted the app itself, restoring the deleted Android app icons on the home screen is not a problem. To help you, I compiled suggestions that worked for me. No matter which Android operating system you have and or what kind of icon you have to get, this should help. Each of these methods does not take two minutes to finish. Without further delay, it started. Related: the best Android data recovery software How to back up and restore your Android phone [A  \$\epsilon\$   \$\grave{a}\$   \$\sim\$  "3 simple steps 3 simple ways to add image widget on screen Home Android How to restore Android app icons Delete icons The following are some methods to recover Android app icons. 1. Check your app drawer the drawer \[A  \\$\epsilon\\$   \\$\grave{a}\\$   \\$\sim\\$  "Drawer app is usually the best place to start if you lack essential icons on your device. If you are not sure, the app drawer is the icon in the middle of your dock at the bottom, which opens a menu that contains most apps found on the device. Here's how to add the app icon from the app drawer. Drawer icon App Step 1: Touch the drawer icon "Drawer app on the device. \\(You can also scroll up or down on most devices.\\) Do this should view a list of all apps on the phone e You can scroll through the pages to view more. Step 2: Find the app for which you want to make a shortcut. \\(If you can't find it, you can easily search the app in the search bar.\\) Step 3: Press and hold l. 'Icon and open the home screen. Step 4: From there, you can release the icon wherever you like. This method will create a new shortcut on your device. App screen installed if you accidentally deleted Android Android app icons on your drawer App, don't worry. You will be able to go back by checking the seven method on this list. 2. Press a blank space for a long time on the home screen, should be easy enough to get most of the icons on your device and it is not even necessary to use the app drawer to bring them back again. Choose what you want to add to your home screen Step 1: The easiest way to recover or delete Android Android icons / widget for lost / widget is to touch and hold onto an empty space on the home screen. This method should cause a new menu to open customizable options for the device. Step 2: Next, select widgets and app to open a new menu. Step 3: Touch Apps. From here, you can choose the app icon you previously deleted by mistake. Step 4: Keep the icon and drag it to a space on the device. \\(You can reorganize later\\). Step 5: Your app should now be exactly where you want it to be, and is ready for use right away. 3. Add a new launcher if you have problems with your current launcher, it's a good idea to install a new one. There are many options to choose from the game store, and all are equipped with different features to customize your device. The launchers available in the Google Play Store in case of starters are new, a launcher is an app that controls the layout and look of the home screen and your app drawer. Step 1: Install the launcher on the device and set it as the default startup. Step 2: Restart the Step 3: Now you will have a different main screen. Step 4: You will be able to find and organize apps and change their icons from the new launcher. If you don't like the appearance of your new launcher, you can always go back to the option, or you can try a new one. But if you want to see some in stock, here is an article on the best lightweight Android launcher. 4. Enable rehabilitation of the disabled apps or find the apps you hidden if you have disabled or you hid all the apps on your device, this could be the cause of an app icon that has been available on your Android device. If if of this family sound, you can check the Applications menu to make sure. Step 1: Open \\[A  \\\$\epsilon\\\$   \\\$\grave{a}\\\$   \\\$\sim\\\$   \\\$\grave{A}\\\$  "Apps" or "Menu ApplicationSA  \\\$\epsilon\\\$   \\\$\grave{a}\\\$   \\\$\sim\\\$  from the settings menu. Step 2: Tap the app whose icon would you like to be able to review. Step 3: If you see a button that says \\\[A  \\\\$\epsilon\\\\$   \\\\$\grave{a}\\\\$   \\\\$\sim\\\\$   \\\\$\grave{A}\\\\$  "NEABLE / STARTA  \\\\$\grave{a}\\\\$   \\\\$\sim\\\\$ , it is likely to be the source of your problem. Touch \\\\[A  \\\\\$\epsilon\\\\\$   \\\\\$\grave{a}\\\\\$   \\\\\$\sim\\\\\$   \\\\\$\grave{A}\\\\\$  "Neable / StartA  \\\\\$\epsilon\\\\\$   \\\\\$\grave{a}\\\\\$   \\\\\$\sim\\\\\$  to go back your icons. Info App screen 5. See if you canceled the application it is possible that you have deleted the app entirely from your device and not just the link on the home screen? You can always check the playback store for a backup. If he says he installs \\\\\(instead of updating "or open\\\\\), you may have deleted the entire app by mistake. If you canceled the app accidentally, you can easily reinstall the app easily. The apps leave a cache on your device for The future reuse, so you have won your data. A factory reset is also another option to return to the normal device, but it is a drastic option, then check one of the other methods before considering it. Related - How to restore the Android phone factory? 6. Recover custom Android app icons that have disappeared custom icons can be a refreshing addict to your usual aesthetic phone, but an update may unexpectedly cause them to disappear from the device. Custom icons If you have problems with custom icons or custom launchers, restore the device or launcher should solve your problem, or you can SEMPR And try the other methods on this list. If you want to know more about the custom icons on Android, here is more information to get started. 7. Check if you deleted the app drawer icon if you accidentally removed the app drawer icon on your Android, there is no need for stress. It should be easy to retrieve the app drawer icon, but the steps may differ slightly depending on the device. Solo Shares Screen Here is a couple of ways to get the app drawer back: Step 1: head to the static lower panel on your device, known as the \\\\\[A  \\\\\\$\epsilon\\\\\\$   \\\\\\$\grave{a}\\\\\\$   \\\\\\$\sim\\\\\\$  "dock". \\\\\\(This is what remains the same, regardless of which page of the home screen is reborn.\\\\\\) Step 2: You will need to move one of the apps to this panel to make room for the app drawer if there is no one. You can delete one of these features while holding it down and confirm delete or moving it into an unused hole on your \\\\\\[A  \\\\\\\$\epsilon\\\\\\\$   \\\\\\\$\grave{a}\\\\\\\$   \\\\\\\$\sim\\\\\\\$   \\\\\\\$\grave{A}\\\\\\\$  "home screen". Step 3: It should turn into a more sign. Step 4: If you touch this Icon, you should view a list of options you can choose to fill the space. Step 5: Select the drawer icon \\\\\\\[A  \\\\\\\\$\epsilon\\\\\\\\$   \\\\\\\\$\grave{a}\\\\\\\\$   \\\\\\\\$\sim\\\\\\\\$   \\\\\\\\$\grave{A}\\\\\\\\$   \\\\\\\\$\epsilon\\\\\\\\$   \\\\\\\\$\grave{a}\\\\\\\\$   \\\\\\\\$\sim\\\\\\\\$  " to bring it back to the home screen. Step 6: If you don't see a more sign, press the lower dock for a long time and touch the default icon. You should be able to find and select the DRAWER APP option from here. Once you have access to your app drawer, it will be easier to retrieve any eliminated or hidden Android app icons. Suggested readings: 12 Android widget tops to make the most of your phone The best Android widgets: must have widgets for your Android smartphone apps  \\\\\\\\$\delta\\\\\\\\$  Android to keep your children occupied during quarantine frequently asked questions Missing icons may be due to a Defective Android launcher, accidentally deleted apps or hidden apps. Whatever the case, you can quickly retrieve the icon without problems until you have yet removed the app. No, restore an app icon requires only a few minutes. The simplest way to restore the app icon is to check your app drawer, touch and drag to the app you want to copy e On the home screen. As long as you have not disabled or deleted or delete the app, you can find them easily in your app drawer. Search for the app you have to recover, keep it and put it on the home screen. To summarize everything to accidentally eliminate your app icons can be a pain but it is usually a pain so much. Fortunately, there are some decent and fast solutions to recover these apps and canceled icons.
