CESAR AUGUSTO RIVAS LOAZA, CCOI, MMAB.

LA LENGUA DE LAS MARIPOSAS.

En este pequeño volumen, desde la perspectiva de un niño, como ocurre una travesía entre 2 mundos políticos en España, donde el niño es protagonista, el niño es gradualmente influenciado por su profesor a estudiar, cosa desacostumbrada a poco como funcionan el mundo y cada día aprende algo nuevo que lo sorprende e pregunta qué sucede al ir creciendo con total independencia, el profesor se convierte en su guía y más bien en su mentor a seguir, se presenta a combatir en el mundo y el autor por la cultura, la amistad y la hermandad.

La historia barroquiza en España y el idealista principiual en ese tiempo era el de convertir un cielo de mundo político de la república al cielo con banderas fascistas, la república proclama sus libertades a parte de los preciosos conocimientos de educación en las escuelas, en las cuales el poder de la iglesia perdía peso a pesar al poder de disminuir la forma de pensar y actuar de las personas, ya que el profesor era obligado a dirigir su enseñanza al conformismo y no a la libertad.

El poder del niño, ademas de muchas personas del pueblo son militares del partido republicano los cuales son considerados como extremos representantes y otros, cosa que ya representa una confrontación a la tradición cristiana arraigada en España, estos son continuamente manipulados por la guerra civil presente en esa época.

Aunque bien evidente las tendencias republicanas del profesor en la hora histórica que iban siendo su gran labor trae por él a el papel importante que representa la presencia de este para el presente del abocamiento de los niños hacia la libertad de la gente como punto fundamental.

Un dia viene alguien más a definir la suerte de la república y el gobierno trae quehaceres como mundo político al régimen fascista, recordando como la persecución de los militares del partido republicano quienes asumen su pertenencia y las posiciones consecuentes, pero el poder del niño no quiere tener la misma suerte que sus compañeros y en un intento desesperado por no ser perjudicado permanece en contra de los que una vez fueron sus aliados también que el niño protagonista de la política frágil lo mismo, ignorando el inicio de un conflicto de ideas que ya había asumido el niño y lo confundió, todo en el inicio de la tragedia.

Mi opinión de la película es que el poder siempre humilla lo sencillo que la persona más simple y de hecho esa es la razón humilla más comprensible, de un

La lengua de las mariposas manuel rivas english translation.

For Moncho, it's an idyllic year: he starts school, he has a wonderful teacher, he makes a friend in Roque, he begins to figure out some of the mysteries of Eros, and, with his older brother, a budding saxophone player, he makes a trip with the band from their town in Galicia. But it's also the year that the Spanish Republic comes under fire from Fascist rebels. Moncho's father is a Republican as is the aging teacher, Don Gregorio. As sides are drawn and power falls clearly to one side, the forces of fear, violence, and betrayal alter profoundly what should be the pleasure of coming of age. —What is the English language plot outline for La lengua de las mariposas (1999)?AnswerYou have no recently viewed pages Showing 1-30 Start your review of La lengua de las mariposas La lengua de las mariposas (which is included in a spanish short story collection called "Vivir en tiempos difíciles". I did not read the book I seem to be reviewing here) is a story set shortly before Spanish Civil War. But that does not really sum up what I feel like about it. To me, this is the best short story I ever read in school, it is beautifully written and shows really well the life situation of people in Spain during the Republic. I truly liked this story and I have to congratulate th La lengua de las mariposas (which is included in a spanish short story collection called "Vivir en tiempos difíciles", I did not read the book I seem to be reviewing here) is a story set shortly before Spanish Civil War, which is really sad in this case. ...more This book, comprising of three german school curriculum this one time (probably the first and last time ever) for choosing this story, well done. I would love to recommend this to EVERYONE. But I highly doubt anybody without knowledge of spanish will read a spanish short story set in a time before Civil War, which is really sad in this case. ...more This book, comprising of three independent short stories, was a beautifully written, sensitive and true that lingers lightly, just like a butterfly, long after reading. Each of the three stories was beautiful, but the first was my favourite. A story about the relationship between a young student and his old teacher, it is written in a child's voice and the images, the observations and the sensory detail is very keenly rendered. We are immediately drawn into this child's family, get a sense of the dusty Spanish town and small, cluttered space where his father, a tailor works. This child's experience of School has everything to do with his schoolmaster, and the relationship is very gentle, but fiercely important too. The kindness of this teacher means so much. There is a political undertone humming through this story, which comes to a head in the last two pages, and is told with shocking brilliance. This is a very talented writer and the translation seems very faithful, language and images not compromised in any way. I would highly recommend this little book and will seek out more work by this author. ...more Jan 05, 2021 Tony Perry rated it it was amazing Two Spanish short stories, both set at either ends of the spectrum of Franco's rule. The first, The Butterfly's Tongue takes place just before the Spanish Civil War; the second one The Side of the Light is set in the final years of the dictatorship. Both of these stories feature young boys as the main characters, and the experiences are through their eyes. For me these struck a special chord; I was ten years old when I left Spain in 1962, falling in the time span between the two tales. The feelings they evoke are ones that were mostly buried and forgotten (in my memory, but they brought to the fore the intense impact that the conflict had on all Spaniards of that time. My sister gave me the book, and since it was short enough I decided to read it... I hardly ever read anything in Spanish these days, because to tell the truth I've become unaccustomed to it, and it requires a special effort to mentally translate (or in many instances look up) words or the phrase. But what a pleasure it was to do so! Not only did I discover that I can still do it, but it brought to life the joy that literature in any language can give... and every language has a unique way of expressing, and so making one see and feel things in a subtly different way. I will resolve to try and read one or two books a year in the Spanish tongue!And here is my attempt at adding to this review in Spanish:Ha pasado bastante tiempo que no he leído ninguna cosa en español, y aún más sin escribirlo. ¡Muchas gracias a mi hermana que me dio esta pequeña libreta! Me ha dado gran satisfacción en poder leer estos dos cuentos. Primero por poder leer en mi primer lengua, después de tantos años de desuso. Aunque es verdad que tuve que consultar al diccionario un par de veces. Por ejemplo, el verbo sollo me habrá escapado completamente de memoria... no suelo hablar ni leer ni escribir el español; parece que ese verbo no tiene traducción directa desde el inglés. Por eso perdóname errores en gramática que hago en este resumen. Bueno, la cosa es que vivo en España hasta 1962, un niño joven como los protagonistas de estos cuentos. Estas narrativas me desenterraron muchos sentimientos que casi nunca salen de mi memoria. Pero han subido al primer plano las sensaciones que sentí tantas veces cuando los mayores discutían en voces bajas las atrocidades y el horror que pasaron durante esos años de dictadura. Y más importante aún que recordar esas memorias, es realizar lo que es el eco de memoria de leer esta lengua. La riqueza de expresión que es posible cuando cualquier idioma se usa bien en la literatura, da verdadera alegría, igual que mirar a una obra de arte. Por todas estas razones leer esto ha sido para mí una ocasión feliz. ...more Sep 29, 2021 Sara Valentini rated it it was amazing La verità è che questo è uno di quei casi in cui il commento al libro potrebbe fare perdere la magia al libro stesso. La inizio e chiudo qui: Moncho, un piccolo sveglio e furbetto che osserva il mondo con occhi più grandi di

lui cercando di catturarlo tutto in un solo sguardo; Don Gregorio, uomo dal cuore grande, forse troppo per un un mondo dove la guerra civile spagnola incombe con le sue regole ferree."Tolonorrinco! Espiritrompa!" il senso di tutto racchiuso in queste due semplici parole. ...more Jan 19, 2021 Katja rated it was amazing La lengua de las mariposas es un clásico. Se trata de Moncho, un chico de seis años, que es muy sensible. Él empezo estudiar en la escuela del pueblo y paso a paso experiencia que aprender cosas de la vida es importante. Sobre todo, su maestro le enseña la belleza del mundo. La historia es tan bonita como triste, lo último por el contexto de la guerra civil. Muy recomendada! This book consists of only three short stories which were made into a film by Jose Luis Cuerda which I've not seen but I would be interested to see how he combined them since they are connected only by the fact that they are all set in Galicia, an autonomous community of Spain, in the nineteen-thirties. There is a progression from the first story, where the narrator is a boy of six with a fondness for insects, through the second tale, whose protagonist is a teenage saxophonist, onto the last wher This book consists of only three short stories which were made into a film by Jose Luis Cuerda which I've not seen but I would be interested to see how he combined them since they are connected only by the fact that they are all set in Galicia, an autonomous community of Spain, in the nineteen-thirties. There is a progression from the first story, where the narrator is a boy of six with a fondness for insects, through the second tale, whose protagonist is a teenage saxophonist, onto the last where an old man tells of how, years before, his attempts at love-making "do and undo all [he:] liked", are thwarted by a devil of a dog, named Tarzan. All deal with illusions: hero worship, first love, passion. The writing is spare. Not a lot happens in these stories, not on the surface anyway. Everything that's important takes place in between the lines. Each of the tales contains instances of story-telling as part of the natural order. The little story-within-a-story of the mute wolf-girl is particularly fascinating. Of course Rivas makes an effort to explain to particular mindsets of the individuals in question - they are the norm as far as he is concerned - but that is a part of the charm of the stories in that all the main characters are struggling to come to terms with not only aspects of who they are but also a society that is itself in a state of flux. A charming little book. ...more Apr 15, 2012 Rebecca rated it was amazing Es un cuento bellísimo de un chico y uno los pocos profesores que conocemos en la vida que nos inspira y que recordamos para siempre. Se sitúa durante el periodo corto de la Segunda República Española, que fue un renacimiento breve para la educación en España. Al chico el profesor le muestra el mundo fascinante de la historia, la literatura, la poesía y ante todo la naturaleza. Sobre todo es una historia de la amistad, que siempre existe, no existe en el amor, no existe en el odio, pero se pierde en la lengua. La memoria, la memoria recuerda a la alquimia, que es mi corto y se pierde en la memoria. La memoria dice mucho sobre la vida y la muerte. ...more Oct 27, 2009 Carleton rated it really liked it It is a review of another edition. I would give the original author of these three penetrating tales five stars. Unfortunately, the stories were translated by two different people and the work of one of the translators was, in my opinion, far superior to the other. I have, therefore, given this edition only four stars. I won't say which translation leaves something to be desired, but would be interested in hearing if others felt the same. ...more Feb 02, 2013 Danny rated it really liked it Qué cuento bello! Aunque es muy corto, el cuento dice mucho sobre la humanidad en un tiempo grave para España. La Segunda República Española parece un paraíso en comparación de la época de Franco. Por eso, no es una sorpresa que el cuento contiene momentos afectivos además de momentos devastadores que muestran la残酷 of the sociedad de Franco. Very much recommended.
