Many students do not realize the importance of making sure that the practical materials they are using are super high quality. If you practice with poor materials, you will have poor results - this is just life. This is true how it is true for reading the act as it does for anything else. Some test preparation companies have put out books with their practice questions that do not come from the official law. Don't rely on these questions alone! These steps will be calibrated for the level of difficulty, length and reading time in ways that only ACT, Inc. compensate fully (and in ways they cannot necessarily be faithfully replicated by test preparation companies). So how can you tell if you're using high quality practice materials from different companies from Act, Inc.? The rapid response is the formatting of the questions. There are two components for each question on the reading section: the question itself and the reference it. If one of these components on a practice test is different from what you will actually see on the act, you may have a problem with the discrepancies between the expected results and your actual results when comparing the real test. So, while we highly recommend the use of further and unofficial practice tests as part of your study plan, you must be cautious about what uses.
