Set in America urban to contemporary, each novel addresses complex themes relevant to the lives of today©'s students: family, friendship, trust, isolation, violence and peer pressure, to name a few. In addition©, the books feature male and female characters and include elements of many literal characters, such as ©, suspense, romance and a touch of the supernatural. Reviewed in a national reading magazine and praised by students and teachers across the country, the Bluford san©rie appeals to readers of all ages. With titles like Lost and Found, A Matter of Trust, Someone to Love Me, and The Gun, novels focus on a group of students from urban high school and their families; each novel addresses situations that students care about. Alissa Williams, a 8th-series student at a public school of academic imams in Philadelphia read the seven books in the series and shares his thoughts on the Bluford series. The Bluford series is a group of books about teenagers who are confronted with challenges and temptations, which forces them to make very important decisions. Personally, i enjoyed reading this series, but what adds to the quality of books are the realistic relationships with urban life. The series includes various aspects of urban lifestyles such as dealing with dysfunctional families, money, school, and drug problems as well as some positive things. The characters were also on Earth. I felt the role they played in the series and the dialect of the characters added to their personalities, which made the stories more vivid. The best part of the series isthat isBye. © the end of each book.
