3.2 Uninstall the driver and restart computer. (Windows: Right click speaker icon on right corner of computer--"Recording Device"/"Playback Device"--right click "USB PnP Device"/default speaker--"Properties"--"Levels". Tutorial on fixing K668 malfunction Tutorial on noise reduction for K668 It doesn't tilt forward! Loosen the screw to make it easy for you to budge it. Battery life may vary depending on the type of battery used. Versatile and Compatible Microphone-Wireless microphone with 1/4 output works with PA System, Amplifier, Mixer, Audio Receiver, Camera as well. 3.For Windows user, before the update or re-installation, you can go to Setting--Privacy--Microphone, and set it to allow apps to access to microphone, at lasts restart computer. When power runs low, the screen will also flash. If not, then no further step, just send us a message. 3.If it is possible, please try the speaker that has over 25 watt power. Ideal gift for youtubers.Accessories Included-Includes headset mic and lavalier microphone, wireless transmitter and receiver, windscreens and tie-clip, two 1/4" to 1/8" adapter-cables. Yes, it does. The same goes for transmitter C. 3.If the mic still doesn't work, we will send you a new cable to replace. b)Instead of speaker, please direct the microphone to your mouth for loud and clear sound. When plugging receiver in, do not place the mic directly in front of speaker. For detailed steps, check out the video below. The microphone is not working. You can find step-by-step tutorial on K038 problem-solving playlist: ♦ Turn off the power to receiver as well as transmitters B & C before you get started. 2.Restart computer and re-plug the mic into the other USB port. After upgraded from Windows 8.1 to Windows 10 (64bit), the microphone doesn't work! 1.Check if the "USB PnP Audio Device" is still listed as the default input under sound settings. It depends on what kind of batteries you use. 1.Re-plug USB cable to microphone to make sure the connection is firm. The receiver makes a lot of noise! 1.Try different cable and different input jacks on speaker. Itâ€™s more compatible with the FIFINE wireless transmitter, and makes the sound better. Does it work with phones? Power on transmitter B and reset it by clicking the top button for 10 times. Pls Choose another model, FIFINE K031B (ASIN: B074C125TN) for recording audio into your computer.Lightweight, Comfortable & Durable-Headset or Lavalier mic are ideal for applications requiring maximum performance and mobility. 2.If yes, please uninstall audio driver and then restart computer (driver will be automatically re-installed). Get to sound setting to see if the "USB PnP Audio Device" is listed as the default input. The better quality battery you use, the longer it may last. please email us. Click the top buttons of both transmitter B & C, resulting in pairing successfully. A flashing 605.000 channel number shows up if you reset transmitter B proper. And bend it back and forth for a couple of times. 4. But what appears on transmitter is the flashing 584.000 channel. How to use multiple microphones on one computer? ("Control Panel"--"Device Manager"--double click "Sound, video and game controllers"--right click the listed drivers--"Uninstall".) If the methods can't help. Will this work with a Bluetooth speaker? Not compatible with PC, laptop. (Windows: Right click speaker icon on right corner of computer--"Recording Device" Mac: Click "System Preferences"--"Sound"--"Input") 2.If the driver appears but the level meter doesn't move when speaking to mic, simply go to Setting--Privacy--Microphone, and set it to allow apps to access to microphone as well as the other apps below, especially the "Voice Recorder". Mac: "System Preferences"--"Sound"--"Input"/"Output"--"Input Volume"/"Output Volume") Microphone doesn't work with my Skype! 1.Check if the problem of the mic or Skype. Microphone doesn't work with my Skype! 1.Check if the problem of the mic or Skype. 3.If the issue still happens, for Mac user, please contact us directly, while for Windows users, please follow the three steps below. But you can't hear any playback of the mic before you click open an audio software (like QuickTime Player) on Mac OS. 2. The figure given is only the approximate value that applies when there are no obstructions between the transmitter and receiver. Speak straightly in front of the capsule. If you are using model that is not listed above, as long as the released date of your phone is similar to those mentioned models, the mic should still work. How long is the battery life? 1.5V Alkaline batteries are recommended for wireless transmitter and receiver. Microphone doesn't work with my Skype! 1.Check if the problem of the mic or Skype. ("System Preferences"--"Sound"--"Input") 2.If yes, then you're good to go. 3.It may interfered by the cell phone or even the light, please be away from that stuff. At lasts restart computer. In order to give adequate sound, that Bluetooth speaker should be more than 25 watt you can find a power bank to supply power for receiver and an audio cable to connect USB receiver with speaker. Warm Tips 1. Before the setup, turn down the volume control of speaker. When they are still flashing, switch on receiver. Using Multiple Microphones On One Computer No sound on my Mac! 1.Check whether the icon of the "USB PnP Audio Device" appears or not. During the use, a)slowly adjust the volume setting of speaker. Please use our original lapel microphone which is equipped. They need to be in direct line of â€™sightâ€™ for them to work. The Eneloop AA and AAA size battery would be a choice. The easiest way is to update Skype to latest version or re-install the latest Skype. Basically, for Windows users, you just need to download an app called voice meter banana. Control Panel"--"Device Manager"--double click "Sound, video and game controllers"--right click "USB PnP Device"--"Uninstall" Microphone doesn't work with my Skype! 1.Check if the problem of the mic or Skype. But you need a USB type A to type C or lightening adapter and we have confirmed that it works with: Samsung S and Note series of 7/8/9, iPhone 5-8, XS MAX, Sony Z series, Google Pixel 2 and Huawei Mate and P 20. Windows: Go to control panel--Sound setting--Recording Device--right click "USB PnP Device"--Properties--Levels. No sound on my Mac! 1.Check whether the icon of the "USB PnP Audio Device" appears or not. Enter the Restore to Factory Settings or contacting FIFIENE service support team to get operation guide if device canâ€™t started up after reload batteries. Uni-directional condenser mic ensures clean transparent audio and enhanced vocal pickup. 3.1 Disable USB Suspension Settings. Skip to content How to reset the units? How can I avoid hissing? Same goes for output volume on "Playback Devices". Pay a bit attention here if its RF B & C lights will blink for 3 times before the last step. When using head-worn, you may need to take off the foam cap to check if the capsule is pointed directly to your mouth. c)And keep the mic at least 9 feet away from speaker for perfect effect. After upgraded from Windows 8.1 to Windows 10 (64bit), the microphone doesn't work! 1.Check if the "USB PnP Audio Device" is still listed as the default input under sound settings. 2.Re-plug the mic to the other USB port. What can I do to increase volume? This distance will vary depending on metal objects, people and other obstructions and on the signal strength. Because the problem may lie in the USB connector. The microphone works fine for about 10 minutes, but then it mutes! 1.To make sure USB port provides enough power, please plug the power cord for laptop. 2.Turn down the volume of K036 and turn up the gain on your amp. Not compatible with ECOXGEAR EcoBoulder+, ION Pathfinder 280, ION Pathfinder 4 and small Bluetooth speakers lower than 15 watt, such as JBL charge, Doss touch, Bose. If you use Mac, just create an aggregated device by using MIDI Audio setup. The most common ones last for 4 hours normally. If there's "Microphone Boost", turn it to 0. 1.Check whether computer has separate MIC jack. If the microphone is not working, what should I do? Yes if you want to have a try, check out the link below. Tutorial on fixing K669/K669B malfunction Tutorial on noise reduction for K669/K669B The volume is so soft! 1.Place the mic 3-5 inches away from you mouth (distance is most important). But you can't hear any playback of the mic before you click open an audio software on Mac OS. 5. If no, you need a USB audio adaptor. 1.Turn up the level of input and output to around 80% on computer. 3. The mic dies after using for 2 hours! The most common batteries on the market can last at least 4 hours, Mac: System Preferences--Sound--Input/Output--Input Volume/Output Volume 2.Do have to aim the mic toward the mouth, seating it approximately 9 inches below. And the screen displays the power of the battery. (Windows: Right click speaker icon on right corner of computer--"Recording Device" Mac: Click "System Preferences"--"Sound"--"Input") 2.If driver is there and the level meter moves when speaking to mic, it will be the bug of Skype. 2.Set on-body control of microphone and input/output level of computer at 50%-75%.
