Trees for mobile phones - ostore or potential health risk? Not surprisingly, a 60 feet metal tower should cause anger among the local residents forced to live with the occasion, but is there more at risk than simply ruined the view? Inside external investigations that phone trees are a danger. Fifteen years after the birth of the mobile phone there are over 35,000 trees and base stations in Great Britain. With three on four people who own a mobile phone and rapid progress in phone trees, not least because of their antiiesthetic mass. Many residents who live, literally, in the shade of a tree, are much more worried about the risk they say that it arises to their health. Their health under Thiateileen O'Connor believes that the tree, erected in the village over a decade ago, brought with SÃ © A variety of health complaints from many local residents ranging from Nosebleaded to headaches. But for Eileen, it was worse - breast cancer. "I went through so many emotions," explains Eileen. "It's complete shock and anger that this has been allowed to happen. "Although there is no statistical tests to support the claim of a cancer cluster to a quejournals, Eileen firmly believes that the two are connected and configured the â  $\mathfrak{E}$
