The launch of the PSVR, of Oculus Rift and HTC lives have been a huge step forward for the virtual reality market, but the limited absorption and cash outlets are too expensive have been a bit disappointed to VR enthusiasts. However, we saw a handful of really nice games and apps, the pop-up that didn't cost you a penny. These free experiences, so beautiful as they are, probably do not provide enough incentives to buy in any three main VR platforms. But if you already have a headset or you are willing to invest even in some software to pay even, there is a lot to enjoy here. Virtually FreeThe free games available in VR are beautiful news, but we think there are ... it's much more to say for the free apps that don't really fall into the game category.
