ARVARI Success Stories 1997-2012 Profunda Theta State Displaying Remote Viewing Atom The Delta State Deep Space Re The Classic Reserve which introduced the investment industry to the concept of negotiating psychology. With rare insight based on his experience of commodities trading in first hand, author Mark Douglas demonstrates how the mental issues that allow to function effectively in society are often psychological barriers in the negotiation. After examining how we develop lost attitudes, this book prepares you for a Mental housecleaning-of deep-rooted processes. And then it shows the reader how to develop and apply attitudes and behaviors that transcend psychological obstacles and lead to success. The disciplined trader helps you to join the few elite that have learned to control your commercial behavior (the few merchants who consistently withdraw the highest percentage of market profits) by developing a systematic, step-by-step approach to Winning week after week, month after MAs. The book is divided into three parts: a general vision of the psychological requirements of the commercial environment A definition of the problems and challenges of becoming a successful marketer A basic behavioral vision that may need to be changed, and how to build a structure to achieve this objective How to develop specific business competencies on the basis of a clear and objective perspective on the market share Innovative work published in 1990 that examined the reason why most traders can not increase their equity on a consistent basis, bringing the reader to
